Flexamat[®] Project Check List

Flexamat® Standard with Curlex II® backing

Flexamat[®] Plus with Curlex II[®] and Recyclex backing

Flexamat® with non-woven fabric backing

Flexamat[®] Project Check List:

Here are some suggestions for a successful $\textbf{Flexamat}^{*}$ installation:

Decide which **Flexamat**[®] option is best for the site.

- 1. Curlex II[®] 2. Flexamat[®] PLUS 3. Geotextile (10 oz.)
- □ Order Flexamat[®] (may need up to 5-7% waste factor)
- □ Have installation crew watch videos on **Flexamat**®'s YouTube Channel
- □ Plan staging area for **Flexamat**[®]

□ Prepare work prior to installation – remove stumps, rocks, soil, etc – for smooth surface

- □ Seed and fertilizer, this needs to be done prior to installation of Flexamat®
- □ Clevis shackle of appropriate weight rating. (For connecting to D-ring on bucket.)
- □ Swivel and rigging with latched sling hooks of appropriate weight rating.
- □ 3-4 moving hooks (Used for adjusting **Flexamat**[®] as needed during installation.)
- □ Lifting straps for large rolls.
- □ Smooth (toothless) bucket on excavator (refer to install videos)
- □ May be needed #3 rebar 18" U-Anchors or Cross Plate Percussion Anchors
- □ May be needed Curlex II[®] or Recyclex[®] TRM for seams and edges
- □ Gloves
- □ Rakes & Shovels
- □ Swivel and rigging w/ latched sling hooks
- \Box Chop saw if cutting is required
